## DIAZ TENDERS RESIGNATION

President and Vice President of Mexico Give Up Power—La Barra Succeeds Diaz.

City of Mexico, May 25.—"President Porfirio Diaz is dead! Long live Citizen Porfirio Diaz!"

President Diaz, in a letter read by the President of the Chamber of Deputies, this afternoon resigned the Presidency of the Republic of Mexico, and at exactly 4:45 o'clock the acceptance of the renunciation by the deputies was announced.

Everyone had expected an uproar and demonstration when the announcement should be made, but within the Chamber the words of the President announcing the event were followed by a dead silence. The deputies seemed awed by what had taken place.

Wildest Shouting and Manifestations in Streets.

In the streets, however, black with people, every street leading to the hall was blocked and news that Diaz was at last no more president was the signal for the wildest shouting and manifestations. There was no violence nor destruction of property.

The motion was offered to accept the president's resignation. One hundred and sixty-seven deputies voted aye, while two of them did not express themselves. They were Benito Juarez, a descendant of President Juarez, and Concepcion del Valle.

As their names were called the legislators arose and bowed their affirmation.

Corral's Resignation Is Unanimously Accepted.

In similar fashion the resignation of Vice President Ramon Corral, now in France, was unanimously accepted, and similarly Francisco Leon de la Barra, late American Ambassador to Washington, was chosen Provisional President. The latter will take the oath of office at noon tomorrow in the yellow parlor of the National Palace.

Madero Representative Commands Federal District.

Of scarcely less interest in the

popular mind was the practical assumption of military control of the federal district by Alfredo Robles Dominguez, Madero's personal representative.

Personally, Dominguez commands only a small body of local rebels, but the federal garrison is under orders to make no move whatsoever without securing his approval. Senor Dominguez stated that he can bring 5,000 organized troops into the city within three hours.

Rebel Forces Could Soon Enter the Capital.

Their baggage and horses are aboard trains furnished by the government at Cuernavaca, Pachuca and Tlaxiapa. He stated that they will remain at their present stations unless they should be needed in this city to control the situation.

## TRENTY-FOUR NEW HOUSES

A CAREFUL INSPECTION SHOWS THAT NUMBER OF NEW RESIDENCES ARE UNDER CONSTRUCTION.

If any man has a doubt about Ada's progress he should spend a few hours in making the round of the town and observe the dozens of new roofs as well as the houses in course of construction. It will prove an eye opener.

Yesterday afternoon a representative of the News availed himself of an invitation from A. L. Beck to take such a trip in his auto. Mr. Beck also wishing to see just what is being done right at present. He had made the assertion to some man that he believed there are at least twenty-five dwelling houses in course of construction, and an investigation proved that he had over-estimated the number by just one. Twenty-four houses are either in course of erection or have been completed within the past two weeks. As building has been going on all the time it is safe to say that since January no fewer than seventy-five or eighty residences have been built in Ada. This indicates an increase of not less than 350 in the population of the town, for there were no vacant houses to be seen on the round made yesterday.

It will soon be five years since the writer arrived in Ada, and yesterday's excursion afforded an excellent opportunity to compare and contrast the town with what it was then. The marked improvements noted on every hand, the many houses built since then, many additions to older houses, sidewalks and other public improvements installed, were enough to make men of far less sanguine dispositions than Mr. Beck and the News man feel good and predict a real future for Ada if her citizens will only grasp the opportunity which is now knocking loudly on her door. It is with a lighter heart that the writer returned to take up his daily task, and a real privilege to boost for a town like this. It may not be out of place to add that it is the writer's opinion that during the past three or four years more building has been done on 16th and 9th streets than on any other two, but if wrong, we stand ready to be corrected.

## SIDELIGHTS ON MEXICO

LETTER TO THE NEWS FROM ONE WHO IS FAMILIAR WITH CONDITIONS.

This morning the editor of the News received the following letter from his brother, who for a number of years has been a railroad engineer out of San Luis Potosi. As he has a habit of calling things by their right name, this letter is probably one of the most accurate pictures of conditions in the Mexican republic ever presented.

Kingsville, Tex., May 22, 1911.

Dear Brother: As you see by above address that Mexico is too hot for comfort. We came up last Friday and I am going to leave the wife and baby up here for some time until things quiet down—which will be after they hold an election.

This revolution has gone very much in favor of the rebels which means that somebody has put up a lot of money, more than anybody ever thought that anyone would put up in the cause. Well, they furnished in the neighborhood of 20 or 25 million dollars and nobody knows how much the federal side has spent, and to no avail. Diaz and party are down and out for all time to come as far as can be seen. It is the same old story of a house divided against itself—it must fall; from within if not from without. But the point is that these people who now hail Madero as the liberator will be ready next year to howl for his blood, and curse him for a tyrant. They are against anything that stands for law and order; liberty stands for license in their dictionary. It is impossible for anyone to foresee the future in Mexico now. We will just have to wait and see.

Shortly after I wrote you last every thing began to go in favor of the rebels. They were about all in financially at that time, but all of a sudden they had all kinds of money and everything went their way from then until now.

The state of San Luis Potosi has been the quietest state in Mexico outside of the numerous bands of robbers and cut-throats that blossomed out over night when the government had no soldiers to send out to put them out of business, we have had no trouble.

The worst thing we had was a bunch of about 200 at and near a station named Salinas about halfway between San Luis and Aguas Calientes. They had things all their own way for about a month. They robbed every train that came along, including the railroad men and the passengers. They robbed mines and ranches and assaulted all the girls and women on them including this mess about the British subject mentioned in this clipping. By the way he is a peer of the realm. His name is Lord Stanhope and he is owner of a big salt works at Salinas and a rich man. They rode their horses into his house and wrecked it. After taking everything they wanted they demanded \$3000 and he gave them all he had (about \$1000) so they decided to shoot him, and afterward to hang him. They shut him in a house and promised to kill him at sunrise but before this they took him between two horses and made him run about a mile (he was 54 years old) and when he did not run fast enough they would run a horse up on him from behind and after a horse stepping on him and breaking his foot they left as above stated. In the meantime about ten Americans who were marooned at the station about a mile away heard of him and came over and got him and kept him with them until morning. In the meantime the band of "patriots" were robbing every thing in town and getting drunker all the time.

The next day (the train was held 3 days and nights) the bunch of Americans induced the leader of the band to let the old man go to San Luis and send them the money and I saw the money sent. The clipping is so true that I want it printed again with the assurance that it speaks the opinion of every American in Mexico.

The Americans get no protection whatever because if they did a lot of millionaires up north might lose something in a business way as a

Mexican told me not long ago in discussing the question he said (freely translated): "Your Uncle Sam would sell his children (citizens) into slavery or his daughters into infamy, for commercial reasons, his only God is money; honor he knows not and cares not for—but with England and Germany it is different."

My dear boy, you will not live long in a foreign country until you will lose all pride in being an American citizen. You will neither ask nor expect protection from your government. You will know that with the U. S. government that there is no right but "business" and no God but Mammon. Sore? No not a bit, we're proud we are Americans—I don't think.

I noticed in the San Antonio Express where the leader of that band was executed. His name was Torres. He was shot by Madero's men, too. Madero has not and says he will not stand for that kind of work. That means he will have several thousand to shoot at once and he will then be as popular as Diaz is now with the great majority who are now fighting to oust Diaz.

Diaz has made Mexico and deserves a better end than he has come to. He still has, and will continue to have, the admiration of lots of people—he has got mine even if he is down and out. It is easy to make fun of a dead lion, you know.

The trouble was this, I think. When he was younger he kept in touch with everything himself, but as he grew older he had to trust his officers more and more and paid less attention to what they were doing. They misused their authority and he gets the blame for it, when he woke up to the truth it was too late to remedy the evil. Thank goodness the man who has been most instrumental in bringing it about (Liamantour) and who has been trying to get into the good graces of the rebels has failed too and will have to go down with him. He is regarded, and rightly, too, as the Judas of modern times. The man who sold his country and ruined his master for 30 pieces of silver more or less. I'm going back to Mexico tomorrow night. I'm going to see this thing out to a finish. The wife and baby are safe and I could not sell any thing we have so I'm going to stay there. I am not worried about what

they may do to me, I know too many of them personally.

Don't worry about me and roast the U. S. all you can and you won't tell a lie no matter what you say about the administration. I wish I had a king to bow to, one who would protect me instead of a king of gold who all of us bow to and yet get no protection.

Your brother,

H. J. NORRELL

Following is the clipping mentioned in the letter and is sufficiently clear to need no explanation:

It would seem that President Diaz has plenty of troubles of his own, but more is coming. It is reported from the City of Mexico that an Englishman who believes that his property has suffered during the continued disturbance in Mexico is about to sue the republic. One suit at law may not mean much, generally speaking, but this man happens to be a British subject, and Great Britain will take a fleet of Dreadnaughts over the mountains to the palace of Diaz, but that her son shall have justice. The Mexicans have killed a few Americans, but we have not time to bother with that. We have lots of Americans. With England it is different. Nobody ever tramples on the rights of an Englishman without explaining the matter in complete detail.

The News man dropped in at the Grand Leader yesterday afternoon and found the big sale in full blast, the store full of customers and the clerks all busy. The goods had been placed in the most advantageous positions for display and a customer could easily find what he was looking for.

## NEGROES LYNCHED AT OKEMAH

Muskogee, Okla., May 25.—Mary Nelson, negroess, and her son, eighteen years old was taken out of the county jail of Okfuskee county, at Okemah, Wednesday midnight and hanged to the timbers of a bridge over the North Canadian river six miles away.

The mob which formed quietly, went to the jail and bound and gagged Lawrence Payne, the jailer, then taking his keys they went to the cells and taking the two negroes out, bound them, put them in a wagon and started north. The two bodies were found this morning still hanging to the bridge.

The members of the mob were masked and the jailer states that he has no idea who any of them were. The work was done so quietly that the town was not aroused and no one knew of the lynching until this morning except those who were engaged in it.

Two weeks ago Deputy Sheriff George H. Loney went to the Nelson home in search of some stolen meat. He found it and started to make an arrest when he was shot and killed. Both the Nelson woman and the son at first claimed to have fired the fatal shot, but it was later admitted that he was the son who fired it.

The husband of the woman was arrested at that time and sent to the penitentiary for larceny. After the Nelson woman and her son were taken they confessed that they had deliberately laid a plot to kill Loney. About a week ago, when Jailer Payne went into the cells, the Nelson woman attacked and tried to overpower him and get his revolver. He

fought her off and finally subdued her. J. A. Dunnegan, the sheriff of Okemah county, was completely surprised by the mob Wednesday night. He did not know of what was going on until Thursday morning and states that he had never even heard a rumor of an attempt of lynching.

### SHALL PONTOTOC CO. BE RE- PRESENTED AT STATE FAIR?

Of course the newly organized  
Chamber of Commerce has many  
things to think of and much that  
must be done at once, but the News  
hopes that among other things it will  
at once take up the matter of see-  
ing that Pontotoc county is prop-  
erly represented at the next state fair.  
Not a county in the state has a  
greater variety from which to make  
up an exhibit than Pontotoc and  
with a little work one can be gath-  
ered together that will attract more  
attention than anything that has been  
seen in a long time.

Some towns occasionally complain  
of the smoke nuisance. We would  
like to see quite a lot more smoke  
than is at present curling up from  
smokestacks. With Byrd's Mill wa-  
ter in the city we may reasonably ex-  
pect to see more smokestacks in a  
very short time.

Wonder if the open hand that  
appears on the election tickets as  
the emblem of the Socialist party  
represents the familiar outstretched  
palm extended by every speaker who  
comes along and wants to rake up  
a collection from among the rank and  
file of the party.

The Muskogee Phoenix gets off the  
following at the expense of Oklaho-  
ma City:

"An Oklahoma City man was visit-  
ing in Muskogee yesterday. 'How's  
your business?' a Muskogee merchant  
asked him just to be courteous. 'Fine,'  
the Oklahoman replied, 'it never was  
as good.' A little later another Mus-  
kogean asked what his business is.  
'I am in the transfer business,' the  
visitor replied. 'His business should  
be good in Oklahoma City. Everybody  
is moving—out.'"

While there has been considerable  
changing about in the printing busi-  
ness of Pontotoc county during the  
past four and one-half years, there  
has been little change in the person-  
nel of the men engaged in the busi-  
ness. In Ada Weaver of the News is  
still on deck, while Harper of the

Just a general shuffling around, but  
the same old gang is playing the game.

Some people will hardly believe  
what they see with their own eyes.  
The state bankers passed a ringing  
endorsement of the bank guaranty  
law, and now comes the Tulsa

as soon as they reach home.

### IT'S UP TO OKLAHOMA CITY.

The people voted the state capital  
to Oklahoma City with the under-  
standing that that town would furn-  
ish funds to erect a capitol building  
costing not less than a million and  
a half. After the supreme court had  
decided against the legality of the  
election, Gov. Haskell called the leg-  
islature together to carry out the  
will of the people as expressed at  
the polls. This time it was in the  
trade that the new capital would be  
let off with a million dollar building.  
As a condition of signing the mea-  
sure Gov. Haskell made the citizens  
sign up a subscription list for \$71-  
000 with which to defray the ex-  
penses of moving from Guthrie and  
of paying rent until the state should  
be ready to move into its own home.  
Not a cent of this money has been  
paid, and naturally people are begin-  
ning to wonder if it ever will be.  
One thing is certain the voters of  
Oklahoma are in no mood to stand  
for any monkey business. The ex-  
cuse that the money will be paid  
over when the United States Supreme  
court finally settles the case is not  
sufficient, for if we understand the  
contract no provision was made for  
any such contingency. Everybody  
knew that Guthrie would contest the  
act of removal, and no matter how  
the case is decided the cost of mov-  
ing and of rent will have to be paid  
from some source, and if Oklahoma  
City fails to make good the day of  
retribution is soon to arrive. The  
writer voted for Oklahoma City, but  
if she falls down on her promises  
he will be ready to vote for a re-  
moval to some place that will keep  
its promise. It is not the amount of  
money involved so much as it is the  
principle at stake. It is all right to  
await the decision of the supreme  
court before taking steps to sell lots  
to raise funds with which to build  
the capitol, for until that question is  
out of the way, they would not bring  
much of a price, but the other ques-  
tion is now up to the citizens of the  
metropolis to decide.

### GETS JUDGMENT OF \$1,000 AGAINST EDITOR

Claremore, May 26.—The jury in  
the case of Ella Larner vs. A. L.  
Kates, in the district court for Rog-  
ers county, brought in a verdict in  
favor of the plaintiff for \$1,000 and  
costs. Mrs. Larner, who is the wife  
of J. H. Larner, editor of the News,  
sued Kates for \$10,000 damages for  
an article appearing in the Progress  
of which Kates is editor, about a  
year and a half ago.

Larner kept roomers, and the  
progress printed an article saying  
that Mrs. Larner had ejected some  
roomers who had a very sick baby,  
and that at the time the baby was so  
near dead that before the mother  
could get away from the house to  
find another place, the child died in  
her arms.

It was expected the trial would be  
a hard fought one, but no evidence  
other than the article was introduc-  
ed. The judge held that the article  
was libelous and ruled in such a man-  
ner that the defendant claimed there  
was need or use in his introducing  
his testimony, which, according to the  
understanding of those interested in  
the case, would have been an attempt  
to prove the truth of the statements,  
and that they were printed without  
malice. Kates' lawyers claimed that  
under the judge's rulings, there was  
no use to prove this, as he would be  
just as liable to damage anyway, so  
the case went to the jury with in-  
structions from the judge that they  
must find for the plaintiff in the sum  
of \$100 or more and for costs.

The defendants will appeal to the  
state supreme court at once, and all  
editors over the state will be inter-  
ested in the decision, as the rights of  
papers and defenses in libel suits un-  
der the Oklahoma law has never been  
tried along these lines.

### PRESIDENTS OF STATE SCHOOLS ELECTED

Oklahoma City, Ok., May 25.—The  
state board of education has accept-  
ed the resignation of Rev. A. Grant  
Evans, formerly of Muskogee, as  
president of the state university at  
Norman and designated Dean J. C.  
Monnett of the law school as acting  
president, effective Sept. 1.

It is probable the place will not be  
permanently filled before Jan. 1. The  
acting president was a member of  
the faculty of the George Washing-  
ton school of Law at Washington  
when elected to the Oklahoma posi-  
tion two years ago. He received his  
B. A. at the University of Iowa in  
1892 and degree of doctor of laws  
from Harvard in 1908. Rev. Mr.  
Evans has been president of the uni-  
versity since statehood, succeeding  
President Boyd.

The resignations of heads of six  
other state institutions and their suc-  
cessors were announced by the board  
today. Prof. Charles Evans, one of  
the authors of "Oklahoma History  
and Civics," and superintendent of  
the Ardmore public schools, becomes  
president of the state normal at Ed-  
mond; Dr. Edmond D. Murdaugh,  
formerly president at Edmond, later  
president of the Maryland Agricul-  
tural and Mechanical College, and  
now president of the branch prepara-  
tory school at Claremore, becomes  
president of the Durant Normal;  
Prof. Frank Buck, superintendent of  
the Guthrie city schools, goes to  
the Tahlequah Normal as president;  
U. G. Griffith, vice president at Ed-  
mond, goes to Weatherford in charge  
of the Southwestern normal; J. H.  
Bayes, city superintendent at Chan-  
dler, was elected president of the  
branch preparatory school at Clare-  
more and Oscar W. Stewart of Clin-  
ton was elected superintendent of  
the state blind school at Fort Gibson.  
Prof. Stewart was educated in the  
blind school of Texas and at Van-  
derbilt.

The following institutional heads  
were re-elected: Alva Normal, presi-  
dent, Grant B. Cummine; Ada Normal  
president, Charles W. Briles; Girls'  
Industrial School, Chickasha, presi-  
dent, J. A. Moore; Industrial School,

### LADIES FIND MANY ROOMS FOR STUDENTS

Mr. Beck's plan for the aid so-  
cieties to take up the matter of find-  
ing rooms for the normal students  
during the summer term is proving  
a most gratifying success. The la-  
dies have been working most zeal-  
ously since yesterday morning, and  
the Baptist and Presbyterian ladies  
report to Mrs. Bills that they have  
secured more than fifty rooms. When  
the others make their report there is  
little doubt about there being a suf-  
ficient number of rooms to accommo-  
date all comers. The News extends  
congratulations to all parties con-  
cerned, for this matter is one of the  
most important that has presented  
itself in a long time.

### Chautauqua Ticket Sale.

Students of the normal are aiding  
in the sale of tickets to the summer  
chautauqua and during the next few  
days an effort will be made to reach  
every one in the city and show them  
the advantages of purchasing tickets  
for the season at \$2 rather than to  
wait until the chautauqua begins and  
then pay fifty cents for each attrac-  
tion. The chautauqua opens two  
weeks from Monday and after the  
opening date no season tickets will  
be sold. The students are entering  
into the spirit of the chautauqua  
movement and desire to help make it  
a big feature of the summer normal  
life as well as the summer life of the  
town.

## YOUNG MOTHERS

The greatest crisis in a woman's life  
is when first she becomes a mother.  
All the physical strength of her  
nature is demanded at such times,  
and it is necessary that her system  
be thoroughly prepared for the event,  
in order that her health be preserved  
for future years. Mother's Friend  
is woman's safest reliance; it is a medicine for external use, composed of oils  
and other ingredients which assist nature in all necessary physical changes of  
the system. Its regular use before the coming of baby prepares the muscles  
and tendons for the unusual strain, aids in expanding the skin and flesh fibres,  
and strengthens all the membranes and tissues. Mother's Friend lessens the pain  
and danger at the crisis, and leaves the mother in such healthful con-  
dition that her recovery is always rapid and natural. Mother's Friend  
is sold at drug stores. Write for our  
free book for expectant mothers.
